

The WATERPRAXIS project has been finished in January 2012. The project partners invite you to browse through our website.

You can find final reports of all work packages on the page “ [final results](#) ”. Furthermore, all outputs from the project, the presentations and other material from the various events are available in the “**downloads and results**” section.

We hope you find the information useful. The project partners want to thank the [Baltic Sea Region Programme](#) for part-funding this project!
